CD-ROM MATERIALS

The *"Proceedings, Scientific Results"* CD-ROM contains electronic versions of the Legs 159 and 159T *Scientific Results* volumes in Adobe Acrobat (see directory structure below). The volume is designed for Adobe Acrobat Reader 3 software, which is supplied on the CD. All files with a .PDF extension should be viewed through Acrobat.

There are five starting points for this CD:

ACROREAD.TXT is an ASCII file that explains how to install Adobe Acrobat on any of the available platforms.

README.PDF is an Acrobat file that contains information about the CD, lists the files, and describes how to use them.

README.TXT is an ASCII file that contains information about the CD, lists the files, and describes how to use them.

159SR.PDF lists the table of contents for the volume and contains links to the volume chapters.

159TSR.PDF lists the table of contents for the volume and contains links to the volume chapters.
