Table 2. Calcareous nannofossil biostratigraphy of Hole 865C and range chart of relative abundance by alphabetical order.

| Age | | Zone (Okada and Bukry (1980)) | Sample | *Braarudosphaera bigelowii* | *Braarudosphaera pulchella* | *Bramletettius serraculoides* | *Calcidiscus protomacilentus* | *Campylosphaera dela* | *Campylosphaera eodela* | *Chiasmolithus bidens* | *Chiasmolithus californicus* | *Chiasmolithus consuetus* | *Chiasmolithus danicus* | *Chiasmolithus expansus* | *Chiasmolithus expansus* | *Chiasmolithus gigas* | *Chiasmolithus gondii* | *Chiasmolithus medius* | *Chiasmolithus nitidus* | *Chiasmolithus nitidus* | *Chiasmolithus oamaruensis* | *Chiasmolithus solitus* | *Chiasmolithus solitus* | *Chiasmolithus titus* | *Coccolithus crassus* | *Coccolithus pelagicus* | *Coronocyclus nitescens* | *Cruciplacolithus asymmetricus* | *Cruciplacolithus cribellum* | *Cruciplacolithus frequens* | *Cruciplacolithus latipons* | *Cruciplacolithus primus* | *Cruciplacolithus tenuis* | *Cruciplacolithus subrotundus* | *Cruciplacolithus tenuis* | *Cyclicargolithus vanheckii* | *Dictyococcites bisectus* | *Dictyococcites scrippsae* | *Discoaster "prendelli"* | *Discoaster "prenudelli"* | *Discoaster "pretaniae"* | *Discoaster barbadiensis* | *Discoaster bollii* | *Discoaster cf. D. diastypus* | *Discoaster deflandrei* | *Discoaster falcatus* | *Discoaster kugleri* | *Discoaster lenticularis* | *Discoaster lodoensis* | *Discoaster mahoneyi* | *Discoaster multiradiatus* | *Discoaster nobilis* | *Discoaster nodifer* | *Discoaster obolatus* | *Discoaster sanpaoensis* | *Discoaster salisburgensis* | *Discoaster sp.* | *Discoaster strictus* | *Discoaster tanii* | *Discoaster tani* | *Ellipsolithus bollii* | *Ellipsolithus distichus* | *Ellipsolithus lajollensis* | *Ellipsolithus macellus* | *Ericsonia cava* | *Ericsonia cf. E. robusta* | *Ericsonia formosa* | *Ericsonia inaulita* | *Ericsonia obruta* | *Ericsonia robusta* | *Ericsonia subdistichia* | *Ericsonia subpertusa* | *Fasciculithus alanii* | *Fasciculithus aubertae* | *Fasciculithus bobbii* | *Fasciculithus involutus* | *Fasciculithus lillianae* | *Fasciculithus pileatus* | *Fasciculithus schauboi* | *Fasciculithus sp.* | *Fasciculithus tympaniformis* | *Fasciculithus ulii* | *Heliolithus cantabriae* | *Heliolithus kleinpellii* | *Heliolithus riedelii* | *Lophodolithus mochlorus* | *Lophodolithus nascens* | *Marthasterites tribrachiatus* | *Micrula* sp. | *Nannotetrina fulgens* | *Neochiastozygus chiatus* | *Neochiastozygus distentus* | *Neochiastozygus junctus* | *Neochiastozygus modestus* | *Neochiastozygus perfectus* | *Neochiastozygus primitivus* | *Neococcolithes saepes* | *Neococcolithes dubius* | *Neococcolithes protenus* | *Nereupelithus bukrysi* | *Nereupelithus sp.* | *Pedinocyclus larvalis* | *Placozygus sigmoides* | *Pontosphaera scissura* | *Pontosphaera sp.* | *Prinsiaster biaculeus* | *Prinsius dimorphosus* | *Prinsius martinii* | *Reticulofenestra "grandis"* | *Reticulofenestra dictyoda* | *Reticulofenestra hillae* | *Reticulofenestra reticulata* | *Reticulofenestra umbilicus* | *Rhabdosphaera inflata* | *Sphenolithus "spinosus"* | *Sphenolithus anarrhopus* | *Sphenolithus ciliatus* | *Sphenolithus conicus* | *Sphenolithus ciliatus* | *Sphenolithus furcatolithoides* | *Sphenolithus moriformis* | *Sphenolithus obtusus* | *Sphenolithus orphanknollensis* | *Sphenolithus pseudoradians* | *Sphenolithus radians* | *Sphenolithus spiniger* | *Sphenolithus strelkovae* | *Thoracosphaera operculata* | *Toweius callosus* | *Toweius eminens* | *Toweius gammation* | *Toweius occulatus* | *Toweius pertusus* | *Toweius sp.* | *Tribrachiatus bramlettei* (?) | *Tribrachiatus contortus* (?) | *Tribrachiatus orthostylus* | *Triquetrorhabdulus inversus* | *Zygodiscus adamas* | *Zygodiscus bramlettei* | *Zygrhablithus bijugatus* |
