

In a paper by Brian T. Huber, entitled "Paleogene and early Neogene planktonic foraminifer biostratigraphy of Sites 738 and 744, Kerguelen Plateau (Southern Indian Ocean)," the second part of Figure 4 was inadvertently omitted. Both parts of Figure 4 are reproduced below as they should have appeared on page 436 of SR Vol. 119.

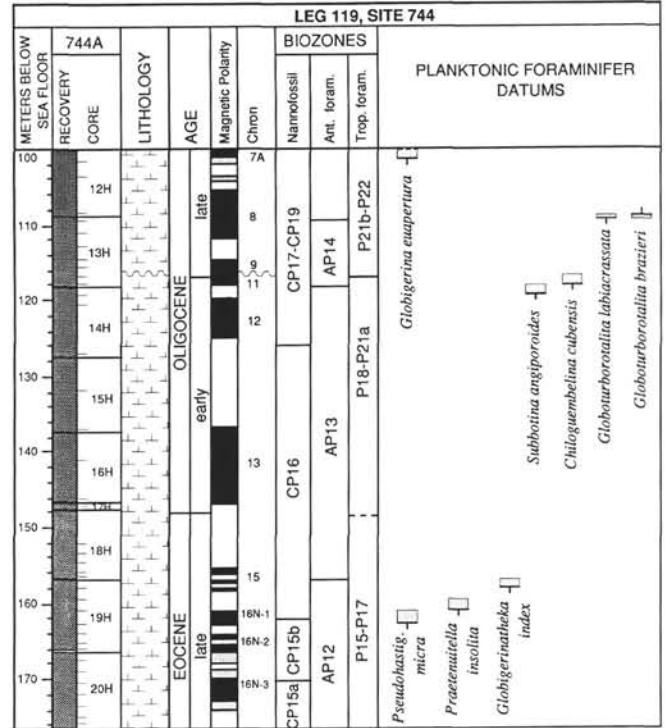

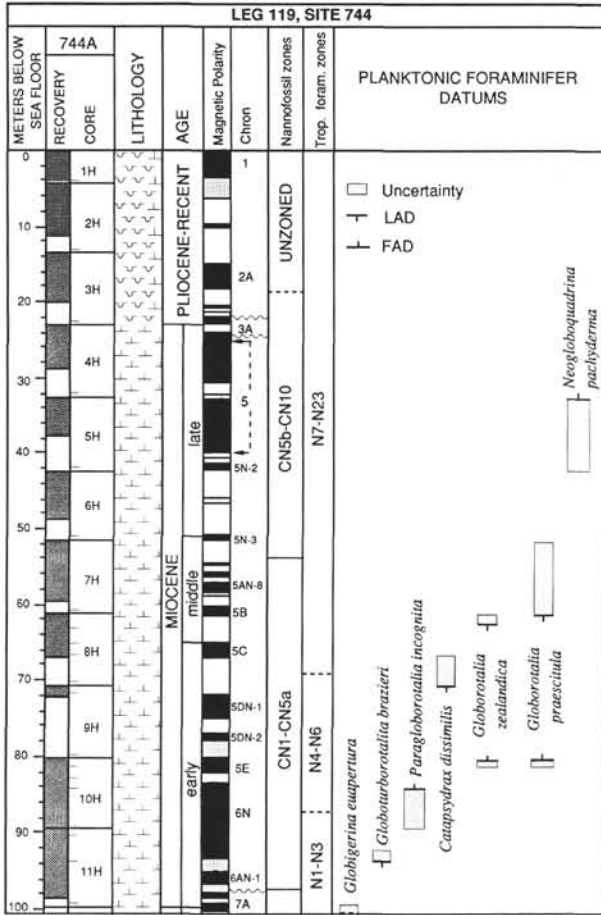

Figure 4. Lithostratigraphy and biostratigraphy of the uppermost Eocene through Holocene sequence recovered at ODP Site 744 based on biostratigraphic data presented in Table 3. See Figures 2 and 3 for additional explanation.
