Figure 10: Multichannel seismic sections across Leg 146 drill sites (lines 89-04, 89-08, and 89-10).

Figure 11. A. Detailed bathymetry of the southern Vancouver Island deformation front region. B. SeaMARC II acoustic imagery mosaic of the southern Vancouver Island deformation front region.

Publishers note: This figure was mistakenly omitted from the Leg 146 Initial Reports volume. It should have been referenced in the "Vertical Seismic Profiles" section, "Explanatory Notes" chapter, page 43, right column, line 11, at the end of the sentence giving the gun depths.
