CD-ROM MATERIALS

The “*Proceedings, Scientific Results*” CD-ROM contains an electronic version of the Leg 158 *Scientific Results* volume in Adobe Acrobat. The volume is designed for and only can be viewed with Adobe Acrobat Reader 3 software. The software is supplied on the CD.

There are three starting points for this CD:

README.TXT is an ASCII file that explains how to install Adobe Acrobat on any of the available platforms. This file is in the root directory.

READ158.PDF is an Acrobat file that contains information about the CD, lists available files and how to use them, and describes how the core images were created. This file is in the root directory.

158SR.PDF lists the table of contents for the volume and contains links to the volume chapters. This file is in the root directory.
