#### CD-ROM

The “*Proceedings, Scientific Results*” CD-ROM contains electronic versions of the Legs 159 and 159T *Scientific Results* volumes in Adobe Acrobat (see directory structure below). The volume is designed for Adobe Acrobat Reader 3 software, which is supplied on the CD. All files with a .PDF extension should be viewed through Acrobat.

There are five starting points for this CD:

**ACROREAD.TXT** is an ASCII file that explains how to install Adobe Acrobat on any of the available platforms.

**README.PDF** is an Acrobat file that contains information about the CD, lists the files, and describes how to use them.

**README.TXT** is an ASCII file that contains information about the CD, lists the files, and describes how to use them.

**159SR.PDF** lists the table of contents for the 159 volume and contains links to the volume chapters.

**159TSR.PDF** lists the table of contents for the 159T volume and contains links to the volume chapters.
