Black-and-white video footage from the ODP vibration-isolated drill string television camera (drill string and bit in the top center of the image) showing active venting of hot ($>250^{\circ}\text{C}$) hydrothermal fluid issuing from the throat of a reentry funnel (left-hand side of image). Footage was shot at 2450 meters (>8000 ft) below sea level, field of view ~ 15 meters (~ 50 ft).
