

TABLE OF CONTENTS

VOLUME 174AX—INITIAL REPORTS

Acknowledgments 1

SECTION 1: SITE CHAPTER

1. Bass River Site 5
K.G. Miller, P.J. Sugarman, J.V. Browning, R.K. Olsson, S.F. Pekar, T.J. Reilly, B.S. Cramer, M.-P. Aubry,
R.P. Lawrence, J. Curran, M. Stewart, J.M. Metzger, J. Uptegrove, D. Bukry, L.H. Burckle, J.D. Wright,
M.D. Feigenson, G.J. Brenner, and R.F. Dalton

 Authorship of site sections 5

 Bass River site summary 5

 Background and objectives 6

 Operations 7

 Lithostratigraphy 9

 Biostratigraphy 35

 Isotopic stratigraphy 41

 Summary and conclusions 42

CD-ROM MATERIALS

Two CD-ROMs are located in the back of the volume. The “*Proceedings, Initial Reports*” CD-ROM includes electronic versions of the Leg 174A, 174AX, and 174B *Initial Reports* volumes in Adobe Acrobat as well as ASCII tab-delimited versions of tables that do not appear in the printed volume. The “Log and Core Data” CD-ROM contains depth-shifted and processed logging data provided by the Borehole Research Group at the Lamont-Doherty Earth Observatory, Wireline Logging Operator for ODP. The log and core data CD-ROM also contains shipboard GRAPE (gamma-ray attenuation porosity evaluator), index properties, magnetic susceptibility, *P*-wave, natural gamma, and color reflectance data of cores collected on board the *JOIDES Resolution* during Legs 174A and 174B.

PROCEEDINGS, INITIAL REPORTS CD

The *Initial Reports* volumes are designed for Adobe Acrobat Reader 3 software. All files with a .PDF extension should be viewed through Acrobat. Data tables in an ASCII format (files with a .TXT extension) on this CD should be opened through a spreadsheet or text-editing software application.

Contents of 174_CD:

ACROREAD.TXT is an ASCII file that explains how to install Adobe Acrobat on any of the available platforms.

ACROREAD contains the software for Acrobat Reader 3 for all major software platforms (PC, Macintosh, and Unix) and other platforms.

README.PDF is an Acrobat file that contains information about the CD, lists the files, and describes how to use them.

README.TXT is an ASCII file that contains information about the CD, lists the files, and describes how to use them.

174AIR.PDF lists the table of contents for the Leg 174A *Initial Reports* volume and contains links to the volume chapters.

174A_IR contains the Leg 174A *Initial Reports* volume.

174AXIR.PDF lists the table of contents for the Leg 174AX *Initial Reports* volume and contains links to the volume chapter.

174AX_IR contains the Leg 174AX *Initial Reports* volume.

174BIR.PDF lists the table of contents for the Leg 174B *Initial Reports* volume and contains links to the volume chapters.

174B_IR contains the Leg 174B *Initial Reports* volume.

ODPINDEX contains the Compiled Electronic Index of the *Proceedings of the Ocean Drilling Program*.

Directory Structure for 174AX_IR:

FRONTIS.PDF (volume frontispiece)

PRELIM.PDF (volume preliminary pages)

ACKNOWL.PDF (volume acknowledgments)

CHAP_01.PDF (“Bass River Site” chapter)
